

ADRF Appoints Adam Byrd as Sales Manager for the Central Region

Ex-Dali Wireless Sales Lead to Become Central Region Sales Manager

Burbank, Calif., November 9, 2018 -- Advanced RF Technologies, Inc. (ADRF), the largest pure-play in-building Distributed Antenna System (DAS) provider for public safety and commercial radio frequencies, announces the appointment of Adam Byrd as Sales Manager for the Central region of the United States. Byrd joins ADRF with over 20 years of experience in the wireless industry, ranging from roles in project management, corporate finance and sales.

In his new position at ADRF, Byrd will be responsible for driving sales revenue from enterprises, carriers, and third-party operator customers based in the Central regions. He will work in collaboration with the sales team to develop new business relationships, driving development efforts and market strategy, specifically strengthening his segment's operations.

"Adam has an acute understanding of the DAS ecosystem and how to address specific client needs, making him an excellent fit for this role," said Gabriel Guevara, Sales Director of ADRF. "His expertise will help us provide the best service to customers and continue to consolidate ADRF leadership in the DAS U.S. market"

Byrd joins ADRF from Dali Wireless, where he managed a global sales team and was responsible for driving sales growth worldwide through carriers, channels, and enterprises. Prior to that, Byrd managed global sales for IP Access and also worked at Tango Networks, where he focused on deepening company partnerships and sales of small cells and cloud offerings.

"ADRF has a remarkable reputation amongst carriers and distributors as a leading provider of in-building hardware, making the company an obvious solution for enterprises or venues looking to increase their connectivity," said Byrd. "My experience in all facets of the wireless industry, including corporate finance, project management and sales aligns well with the company's vision, and I intend on leveraging my existing relationships skills to ensure ADRF continues their growth in the central United States."
